- Wire Stripper
- Fixed Lanyard Ring
- Quick-Release Lanyard Ring
- Removable Pocket Clip

Strong
We already had the strongest pliers out there, but now we've redesigned them to withstand 133% more squeezing force.

Detailed
Bronze bushings make the exterior blades smooth and quick to open. Our interior blades can be rotated individually, letting you easily grab one tool at a time.

Superior
Leatherman multi-tools feature diamond-coated files. Our filing teeth extend all the way to the edge of the blade for a larger filing surface.

Secure
All-locking blades are easy to use and over 50% stronger than our original locks.

Versatile
Multiple bit drivers let you customize your tool selection to fit any activity. The Charge TTi sheath allows you to easily carry additional bits anywhere you go.

S30V® Stainless Steel
The TTi clip-point blade is crafted from S30V® stainless steel. Known for its optimal combination of edge retention, flexibility and hardness, S30V is one of the strongest stainless steels available—the benchmark against which all others are judged.

Titanium Handles
The lightweight, corrosion-resistant TTi handles are crafted from premium, alloyed titanium. Sculpted for extra handle comfort, they're tough and comfortable enough to tackle any job.

Cutting Edge
The Charge is the first multi-tool with a cutting hook that slices through seat belts and linoleum just as easily as leather or canvas. Charge TTi is ready for any emergency, job or adventure.

Charge® TTi Bits

Each TTi bit is engineered and manufactured to Leatherman's exacting standards. Made from S2 Tool Steel, they are 35% stronger than regular stainless steel. A zinc coating makes them even more corrosion resistant. All are ground to perfection and have a Rockwell hardness of 59 on a Rockwell C hardness scale.

Hex 5/32" and 9/64"

Hex 1/8" and 7/64"

Hex 3/32" and 5/64"

Hex 1/16" and .050

Robertson #2 and #3

Screwdriver 1/8" and Torx #15

Phillips #1-#2 and Screwdriver 3/16"

Phillips and Flat Tip Eyeglasses Screwdriver

Charge TTi Sheaths

The Charge TTi sheath comes in both leather and nylon. Both versions will carry the tool in the open or closed position and two side pockets hold your extra necessities—even a mini-flashlight. An inside back pocket holds Charge TTi's included bits and it has room for a full Bit Kit (sold separately) giving you up to 42 bits to choose from.

Premium Leather

Premium Nylon

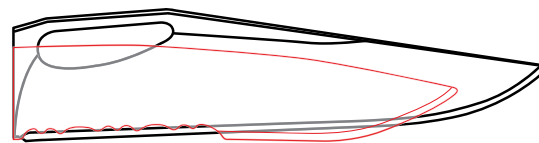

Superior S30V® Blades

Developed by Crucible Steel for the cutlery industry and known as the pinnacle of knife-making alloys, S30V is comprised of metallic powders fused together under intense pressure and heat. After laser cutting and subsequent machining, the blade is hardened in vacuum, then quenched. This process is quickly followed by a cooling cycle in a cryogenic freezer and then given a double temper. The result is the finest combination of edge retention, flexibility and hardness (58-60 Rockwell) while remaining easy to sharpen with conventional stones. S30V also exhibits improved corrosion resistance.

Bigger Than the Competition

The Leatherman Charge TTi packs a knife blade with one of the longest and strongest cutting edges of any multi-tool on the market today.

■ Charge TTi ■ Competitor blade

We've engineered bigger and wider knife blades that still fit in a compact four-inch multi-tool. You'll get the benefit of a longer cutting edge that can slice through any amount of work. And, larger thumbholes let you open our knives in a flash—with just one hand.

Removable Pocket Clip

Quick-Release Lanyard Ring

Charge TTi Accessories

Don't want to wear a sheath? Then clip your Charge TTi to your jacket, backpack or car's visor with the removable pocket clip. Or, choose the quick-release lanyard ring. With it, you're able to safely keep the tool on any lanyard and detach it quickly when you need it.

The Leatherman Difference

Leatherman is known for producing the world's most precisely engineered multi-tools and knives. Tim Leatherman's manufacturing standards remain unmatched in the industry today. With the new Charge TTi, the Leatherman tradition of innovation, tight specifications and strength continues to endure. Our expertise doesn't end with our tools—it also shows in our service. Competitive pricing, prompt delivery, excellent customer service and outstanding warranty support round out our dedication and commitment to you.

Warranty

Leatherman Tool Group, Inc. proudly stands behind its products. If you ever have a problem with a genuine Leatherman tool, you can count on us to make it right with fast warranty service for a full 25 years from the purchase date.
