

Bonded Oil Only Pads

Grainger Items: 1HEH7, 5TR18, 4DKU6, 1HEJ1, 1HEJ8, 1HEJ9

Issue: Potential safety hazards are present around machines or in storage areas where leaks, drips, sprays or spills are most likely to occur.

Solution: A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

Description: OIL-DRI® Oil Only Pads should be a part of every spill control plan. These pads are used to absorb petroleum based fluids in industrial plant applications, and ideal for marine applications as they can quickly remove floating oils from water. Quick absorbing speed and superior retention make Oil Only pads an effective and safe solution for any petroleum based spill problem.

Features & Benefits:

- **Hydrophobic** - Designed to absorb petroleum-based fluids and repel water.
- **Superior Retention** - Holds liquids in
- **Versatile** - Material is easily cut to fit any tight spot
- **Incinerable** - Reduces disposal costs

Product Specifications:

- **Composition:** Meltblown Polypropylene
- **Color:** White
