How to properly install Protect-A-Bed® Bed Bug Encasements
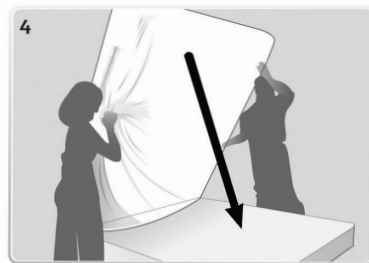

1
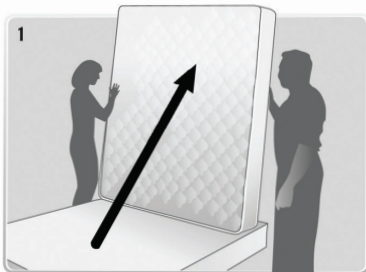

Lift mattress up against the wall.

2

Align the corners of the cover with the corners of the mattress and pull down encasement.

3

Make sure that the top corners are properly aligned before closing the zipper.

4

Place the mattress back onto the box-spring.

5

Zip up the cover all around the mattress.

6

Close the zipper completely and attach the Secure Seal® zip tie to ensure complete bed bug protection.

Before Installing Box Spring Encasement

- **Always install products with two (2) or more people.**
- **Always install felt strips and/or commercial grade duct tape to contact points with bed frame.**
- **Do NOT drag installed encasements onto bed frame or along the floor.**
- **BEWARE of sharp corners or points; these WILL puncture the encasement.**
- **Box spring corner guards may need to be taped to prevent ripping of the encasement.**
