

# LEAKSEAL AEROSOL V2100 SYSTEM

**An innovative way to seal leaks and fill cracks in one step.**

- Easy to use, rubberized protective utility coating
- Provides a water-tight, flexible seal that prevents moisture penetration, rust, and corrosion
- Dries to a semi-smooth, firm finish that will not sag or drip, and can be top-coated with latex or alkyd based paints
- Available in black and clear

# LEAKSEAL AEROSOL

## V2100 SYSTEM

### High Performance LEAKSEAL Aerosol

**Less Prep Time** • Applies smooth and flexible

**Less Application Time** • Cures to the touch like paint

**Less Downtime** • Can be top-coated with solvent or water-based paint in typical re-coat times

**Greater Lifetime Value** • Can actively build to fill gaps, small holes, and cracks

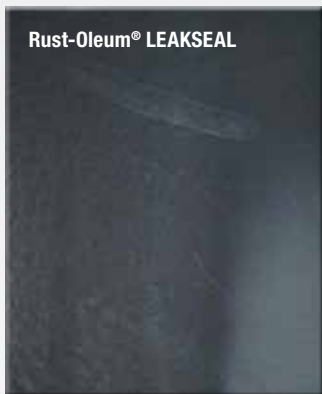

**Toluene free**
