

SAFE ALERT™

Propane & Natural Gas Alarm For Residential, Commercial and Industrial Use

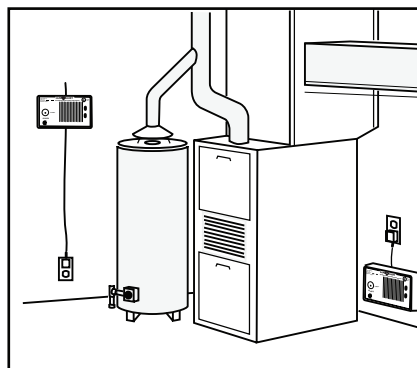

- Early Warning of Explosive Gas Leaks
- IntelCheck™ Circuit. No False Alarms from Momentary Exposure to Propane or Natural Gas
- Instant Test/Mute Button
- Easy Plug-In Installation
- Built to Work In Extreme Temperatures
- Long Life Self Cleaning Sensor
- 1 Year Warranty

Place alarms wherever a gas leak can occur - basement, crawl space, laundry/utility room, kitchen, garage, warehouse, barn, out-buildings - everywhere you need protection.

Detects both Propane/LP and Natural Gas. Set to alarm before gas at the detector reaches 25% of the lower explosive level (LEL). See Owners Manual for installation instructions.

NATURAL GAS
To detect Natural Gas
place the alarm high -
Natural Gas rises.

PROPANE GAS
To detect Propane Gas
place the alarm low -
Propane Gas sinks.
