

D1450 **Material Safety Data Sheet**

HAZARD WARNINGS	8	PIS	K PHRASES				Y OTHING
	Highly toxic with this mat Corrosive to	compound, do n	n contact.	ihale. Avoi	d all contact		
Section I. Ch	nemical Produ	ict and Col	mpany Ide	entificat	ion		
Chemical Name	4-Dimet	nylamino	pyridin	e			
Catalog Number	D1450			Supplier	TCI America		
Synonym	Not available.	Not available.				9211 N. Harborgate St. Portland OR	
Chemical Formula	(CH ₃) ₂ NC ₅ H ₄ N					1-800-423-8616	
CAS Number	1122-58-3				In case of Emergency Call	Chemtrec® (800) 424-9300 ((703) 527-3887 (
• <i>"</i> • •							
Section II. Concentration	omposition a	nd Informa	1	<u> </u>	TLV/PEL	T 1	agu Data
4-Dimethylamino		1122-58-3	Percent (%) Min. 99.0 (T)	Not available		Rat LD ₅₀ (oral) 25 Rabbit LD ₅₀ (derm Mouse LD ₅₀ (intra	nal) 13mg/kg
Section III. H	azards Identi	fication		1			
Chronic Health Effects	Toxic if ingested or inhaled. Avoid prolonged contact with this material. Overexposure may result in serious illness or death. Readily absorbed through skin. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound. CARCINOGENIC EFFECTS : Not available. MUTAGENIC EFFECTS : Not available. TERATOGENIC EFFECTS : Not available. DEVELOPMENTAL TOXICITYNot available. Repeated exposure of the eyes to a low level of dust can produce eye irritation. Repeated skin exposure can produce local skin destruction, or dermatitis. Repeated inhalation of dust can produce varying degree of respiratory irritation or lung damage. Repeated exposure to an highly toxic material may produce general deterioration of health by an accumulation in one or many human organs.						
Section IV. Fi	rst Aid Meası	ires					
Eye Contact	Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.						
Skin Contact		In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.					
Inhalation	If the victim is not breathing, perform mouth-to-mouth resuscitation. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, oxygen can be administered. Seek medical attention if respiration problems do not improve.						
Ingestion	DO NOT INDUCE VOMITING. Loosen tight clothing such as a collar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive.						
Section V. Fi	re and Explos	sion Data					
Flammability	May be combustibl	May be combustible at high temperature. Auto-Ignition Not available.					
Flash Points	>110°C (230°F).	>110°C (230°F). Flammable Limits Not available.					
Combustion Products	These products are	These products are toxic carbon oxides (CO, CO ₂), nitrogen oxides (NO, NO ₂).					
Fire Hazards	Not available.						
Explosion Hazards	Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.

e water jet. sale fire-fighting operations.						
Highly toxic material. Corrosive material. Readily absorbed through skin. Stop leak if without risk. DO NOT get water inside container. DO NOT touch spilled material. Use water spray to reduce vapors. Prevent entry into sewers, basements or confined areas; dike if needed. Eliminate all sources of ignition. Consult federal, state, and/or local authorities for assistance on disposal.						
ndling and Storage HIGHLY TOXIC. CORROSIVE. READILY ABSORBED THROUGH SKIN. Keep locked up Keep container dry. Keep away from heat. Mechanical exhaust required. When not in use, tightly seal the container and store in a dry, cool place. Avoid excessive heat and light. DO NOT ingest. Do not breathe dust. Never add water to this product. Wear suitable protective clothing. If ingested, seek medical advice immediately and show the container or the label. Treat symptomatically and supportively. Always store away from incompatible compounds such as oxidizing agents, acids.						
on						
r engineering controls to keep airborne levels below e dust, fume or mist, use ventilation to keep exposure to						
Face shield. Lab coat. Dust respirator. Boots. Gloves. A MSHA/NIOSH approved respirator must be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.						
ubility Not available.						
n Coefficient Not available.						
Pressure Not applicable.						
r Density Not available.						
latility Not available.						
Ddor Not available.						
`aste Not available.						
ability and Reactivity Data This material is stable if stored under proper conditions. (See Section VII for instructions)						
Avoid excessive heat and light.						
Reactive with oxidizing agents, acids.						
xicological Information US9230000						
Eye Contact. Ingestion. inhalation. Skin contact.						
Rat LD ₅₀ (oral) 250mg/kg Rabbit LD ₅₀ (dermal) 13mg/kg Mouse LD ₅₀ (intravenous) 56mg/kg						
CARCINOGENIC EFFECTS : Not available. MUTAGENIC EFFECTS : Not available. TERATOGENIC EFFECTS : Not available. DEVELOPMENTAL TOXICITYNot available. Repeated exposure of the eyes to a low level of dust can produce eye irritation. Repeated skin exposure can produce local skin destruction, or dermatitis. Repeated inhalation of dust can produce varying degree of respiratory irritation or lung damage. Repeated exposure to an highly toxic material may produce general deterioration of health by an accumulation in one or many human organs.

Acute Toxic Effects	Corrosive to skin, eyes, and respiratory system. Liquid or spray mist may produce tissue damage, particularly in mucous membranes of the eyes, mouth and respiratory tract. Skin contact may produce burns. Eye contact can result in corneal damage or blindness. Inhalation of the spray mist may produce severe irritation of respiratory tract, characterized by coughing, choking, or shortness of breath. Corrosive materials may cause serious injury if ingested. Toxic if ingested or inhaled. Avoid prolonged contact with this material. Overexposure may result in serious illness or death. Readily absorbed through skin. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.
Section XII.	Ecological Information
Ecotoxicity	Not available.
Environmental Fate	Not available.
Section XIII.	Disposal Considerations
Waste Disposal	Recycle to process, if possible. Consult your local regional authorities. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all federal, state and local regulations when disposing of the substance.
Section XIV.	Transport Information
DOT Classification	CLASS 6.1: Poisonous material. Class 8: Corrosive material
PIN Number	UN2928
Proper Shipping Name	Toxic solid, corrosive, organic, n.o.s.
Packing Group (PG)	I
DOT Pictograms	POISON CORDENS

Section XV. O	ther Regulatory Information and Pictograms	
TSCA Chemical Inventory (EPA)	This compound is ON the EPA Toxic Substances Control Act (TSCA) inventory list.	
WHMIS Classification (Canada)	CLASS D-1A: Material causing immediate and serious toxic effects (VERY TOXIC). CLASS E: Corrosive solid.	
EINECS Number (EEC)	214-353-5	
EEC Risk Statements	R23/25- Toxic by inhalation and if swallowed. R27- Very toxic in contact with skin. R34- Causes burns. R41- Risk of serious damage to eyes.	
Japanese Regulatory Data	Not available.	

Section XVI. Other Information

Version 1.0 Validated on 7/31/2002. Printed 2/9/2005.

Notice to Reader

TCI laboratory chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information cnained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, taxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our MSDS sheets are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated MSDS sheets for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, facial mask, fume hood). For proper handling and disposal, always comply with federal, state, and local regulations.
