

# **Material Safety Data Sheet**

HAZARD WARNINGS	RISK PHRASES	PROTECTIVE CLOTHING
	Harmful compound, minimize exposure. Irritating to skin, eyes, and the respiratory system. Hygroscopic keep container tightly sealed.	

Section I. Chemical Product and Company Identification				
Chemical Name	Tetra-n-butylammonium Bromide [Reagent for Ion-Pair Chromatography]			
Catalog Number	10365	Supplier	TCI America 9211 N. Harborgate St.	
Synonym	IPC-TBA-Br		Portland OR 1-800-423-8616	
Chemical Formula	[CH <sub>3</sub> (CH <sub>2</sub> ) <sub>3</sub> ] <sub>4</sub> N•Br			
CAS Number	1643-19-2	In case of Emergency Call	Chemtrec® (800) 424-9300 (U.S.) (703) 527-3887 (International)	

Section II. Composition and Information on Ingredients					
Chemical Name		CAS Number	Percent (%)	TLV/PEL	Toxicology Data
Tetra-n-butylammonium Bromide [Reagent for Ion-Pair Chromatography]		1643-19-2	Min. 99.0 (T)	Not available.	Not available.

Section III.	Hazards Identification		
Acute Health Effects	Harmful if ingested or inhaled. Minimize exposure to this material. Severe overexposure can result in injury or death. Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening, or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.		
Chronic Health Effects	CARCINOGENIC EFFECTS: Not available.  MUTAGENIC EFFECTS: Not available.  TERATOGENIC EFFECTS: Not available.  DEVELOPMENTAL TOXICITYNot available.  There is no known effect from chronic exposure to this product. Repeated or prolonged exposure to this compound is not known to aggravate existing medical conditions.		

Section IV.	First Aid Measures
Eye Contact	Check for and remove any contact lenses. IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. COLD water may be used. DO NOT use an eye ointment. Flush eyes with running water for a minimum of 15 minutes, occasionally lifting the upper and lower eyelids. Seek medical attention. Treat symptomatically and supportively.
Skin Contact	If the chemical gets spilled on a clothed portion of the body, remove the contaminated clothes as quickly as possible, protecting your own hands and body. Place the victim under a deluge shower. If the chemical touches the victim's exposed skin, such as the hands: Gently and thoroughly wash the contaminated skin with running water and non-abrasive soap. Be particularly careful to clean folds, crevices, creases and groin. COLD water may be used. Cover the irritated skin with an emollient. Seek medical attention. Treat symptomatically and supportively. Wash any contaminated clothing before reusing.
Inhalation	If the victim is not breathing, perform artificial respiration. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, oxygen can be administered. Seek medical attention. Treat symptomatically and supportively.
Ingestion	INDUCE VOMITING by sticking finger in throat. Lower the head so that the vomit will not reenter the mouth and throat. Loosen tight clothing such as a collar, tie, belt, or waistband. If the victim is not breathing, administer artificial respiration. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Seek immediate medical attention and, if possible, show the chemical label. Treat symptomatically and supportively.
Section V.	Fire and Explosion Data

Section V.	Fire and Explosion D	ata		
Flammability	Combustible.	Auto-Ignition	Not available.	
Flash Points	Not available.	Flammable Limits	Not available.	
Combustion Products	These products are toxic carb	These products are toxic carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides (NO, NO <sub>2</sub> ), halogenated compounds.		
Fire Hazards	No specific information is ava	No specific information is available regarding the flammability of this compound in the presence of various materials.		

Emergency phone number (800) 424-9300

10365 Tetra-n-butylammonium Bromide Page 2 [Reagent for Ion-Pair Chromatography] Risks of explosion of the product in presence of mechanical impact: Not available. **Explosion Hazards** Risks of explosion of the product in presence of static discharge: Not available. No additional information is available regarding the risks of explosion. Fire Fighting Media SMALL FIRE: Use DRY chemicals, CO2, water spray or foam. LARGE FIRE: Use water spray, fog or foam. DO NOT use water jet. and Instructions

#### Section VI. Accidental Release Measures

Spill Cleanup Instructions

Harmful solid. Irritating solid.

In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and exercise caution. shovel to put the material into a convenient waste disposal container. Finish cleaning the spill by rinsing any contaminated surfaces with copious amounts of water. Consult federal, state, and/or local authorities for assistance on

# Handling and Storage Section VII.

Handling and Storage Information

HARMFUL. IRRITANT. HYGROSCOPIC. Keep away from heat and sources of ignition. Mechanical exhaust required. When not in use, tightly seal the container and store in a dry, cool place. Avoid excessive heat and light. DO NOT ingest. DO NOT breathe dust. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Treat symptomatically and supportively. Avoid contact with skin and eyes.

Always store away from incompatible compounds such as oxidizing agents, moisture.

### Section VIII. Exposure Controls/Personal Protection

**Engineering Controls** Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below

recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Splash goggles. Lab coat. Dust respirator. Boots. Gloves. A MSHA/NIOSH approved respirator must be used to avoid Personal Protection inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling

this product.

**Exposure Limits** Not available.

Section IX. Physical and Chemical Properties					
Physical state @ 20°C	White crystalline powder.	Solubility	Soluble in cold water, hot water.		
Specific Gravity	Not available.	_			
Molecular Weight	322.37	Partition Coefficient	Not available.		
Boiling Point	Not available.	Vapor Pressure	Not available.		
Melting Point	103 to 104°C (217.4 to 219.2°F)	- Vapor Density	Not available.		
Refractive Index	Not available.	Volatility	Not available.		
Critical Temperature	Not available.	Odor	Not available.		
Viscosity	Not available.	- Taste	Not available.		

# Section X. Stability and Reactivity Data

This material is stable if stored under proper conditions. (See Section VII for instructions) Stability

Conditions of Instability Hygroscopic; keep container tightly closed. Avoid excessive heat and light.

Incompatibilities Reactive with oxidizing agents, moisture

#### Section XI. Toxicological Information

BS5390000 RTECS Number

Eye contact. Inhalation. Ingestion. Skin contact. Routes of Exposure

Toxicity Data Not available.

Chronic Toxic Effects CARCINOGENIC EFFECTS: Not available.

MUTAGENIC EFFECTS: Not available. TERATOGENIC EFFECTS: Not available. **DEVELOPMENTAL TOXICITY**Not available.

There is no known effect from chronic exposure to this product. Repeated or prolonged exposure to this compound is not known to aggravate existing medical conditions.

Emergency phone number (800) 424-9300

#### 10365 Tetra-n-butylammonium Bromide Page 3 [Reagent for Ion-Pair Chromatography]

Harmful if ingested or inhaled. Minimize exposure to this material. Severe overexposure can result in injury or death. Acute Toxic Effects Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening,

or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.

## Section XII. **Ecological Information**

Ecotoxicity Not available.

Not available. **Environmental Fate** 

# **Disposal Considerations** Section XIII.

Recycle to process, if possible. Consult your local or regional authorities. You may be able to dissolve or mix material with Waste Disposal a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all

federal, state, and local regulations when disposing of this substance.

#### Section XIV. Transport Information

DOT Classification Not a DOT controlled material (United States).

PIN Number Not applicable.

Proper Shipping Name Not applicable.

Packing Group (PG) Not applicable.

**DOT Pictograms** 

# Other Regulatory Information and Pictograms Section XV.

This compound is **ON** the EPA Toxic Substances Control Act (TSCA) inventory list. TSCA Chemical Inventory

(EPA)

WHMIS Classification WHMIS CLASS D-2B: Material causing other toxic effects (TOXIC).

(Canada)

EINECS Number (EEC) 216-699-2

**EEC Risk Statements** R36/38- Irritating to eyes and skin.

R20/22- Harmful by inhalation and if swallowed

Japanese Regulatory Data Not available.

#### Section XVI. Other Information

Version 1.0 Validated on 8/1/1997.

Printed 2/23/2005.

# Notice to Reader

TCI laboratory chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our MSDS sheets are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated MSDS sheets for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, facial mask, fume hood). For proper handling and disposal, always comply with federal, state, and local regulations
