

Portable Toilet Deodorizer

High Traffic, High Heat

Portable Toilet Deodorizer has the power to fight odors caused by high temperatures and above average use. It contains a high concentration of dye, fragrance and active ingredients, which work together to prevent the growth of odor causing bacteria and breakdown of color and fragrance for outstanding portable toilet odor control. Can be used in multiple applications where sewer lines are not available. Portable restrooms, restroom trailers, septic and vault systems like those found in cities, municipalities, parks, and forest service as well as transportation services (RV, Bus, Train, Plane, etc).

Give your customers the elite experience they deserve.
